PROFESSIONAL SUMMARY

Results-driven AI/ML Engineer with 3+ years of experience designing and deploying end-to-end machine learning workflows, document intelligence pipelines, and interactive web applications.

SKILLS & TECHNICAL EXPERTISE

Languages: Python, SQL, JavaScript, C++

Frameworks & Tools: Streamlit, PyMuPDF, Scikit-learn, PyTorch, Docker, FastAPI, Pandas, Git

Core Competencies: Document Intelligence, Natural Language Processing, OCR, Computer Vision

WORK EXPERIENCE

AI Engineer · DataVibe Systems

2023 - Present

- Built automated document intelligence systems processing thousands of invoices and PDFs weekly.
- Engineered OCR fallback mechanisms using Tesseract and PyMuPDF to extract text from scanned files.
- Developed internal review dashboards using Streamlit, decreasing document review turnaround by 40%.

Junior Machine Learning Developer · Nexa Innovations

2021 - 2023

- Developed feature extraction pipelines and rule-based text parsers for resume parsing services.
- Integrated relational databases and REST endpoints for data ingestion and report generation.

EDUCATION

Bachelor of Engineering in Computer Science

2017 - 2021

Visvesvaraya Technological University (VTU) | CGPA: 8.7/10

PROJECTS

AI Document Intelligence MVP

- Built an intelligent document ingestion platform capable of parsing invoices and resumes with regex.
